

The current tax code is a drag on the economy. It discourages saving and investment, and it requires individuals and businesses to spend billions of dollars and millions of hours each year to comply with the complicated system. I will lead a bipartisan effort to reform our tax code to make it simpler, fairer, and more pro-growth.

We are working to make health care more affordable and accessible for American families. The Medicare modernization bill I signed gives seniors more choices and helps them get the benefits of modern medicine and prescription drug coverage. We have created health savings accounts, which give workers and families more control over their health care decisions. We will open or expand more community health centers for those in need. To help control health costs and make health care more accessible, we must let small businesses pool risks across states so they can get the same discounts for health insurance that big companies get. We will increase the use of health information technology that will make health care more efficient, cut down on mistakes, and control costs.

Our litigation system encourages junk lawsuits and harms our economy, and the system must be reformed. I support medical liability reform to control the cost of health care, keep good medical professionals from being driven out of practice, and ensure that patient care—not avoidance of lawsuits—is the central concern in all medical decisions. I support class action reform to eliminate the waste, inefficiency, and unfairness of the class-action system. And I support reforms to the asbestos litigation system in order to protect victims with asbestos related injuries and prevent frivolous lawsuits that harm our economy and cost jobs.

I will continue to push for energy legislation to help keep our economy strong. We must modernize our electricity system to make it more reliable. To make our energy supply more secure, we must explore for more energy in environmentally friendly ways in our own country, develop alternative sources of energy, and encourage conservation.

I will work to further simplify and streamline federal regulations that hinder growth and encumber our job creators. Our economy needs to allow entrepreneurs to spend more time doing business and less time with their lawyers and accountants.

I believe that Americans benefit from open markets and free and fair trade, and I am working to open up markets around the world and make sure that the playing field is level for our workers, farmers, manufacturers, and other job creators. In the past four years, we concluded free-trade agreements with Singapore, Chile, Australia, Morocco, Bahrain, Jordan, and six countries in Central America and the Caribbean. My Administration will continue to

work to expand trade on a multilateral, regional, and bilateral basis, and to enforce our trade laws to help ensure a level playing field.

I have a plan to prepare our young people for the jobs of the 21st century. We have brought greater accountability to our public schools and are working to improve our high schools. We have made Pell grants available to one million more students, and we will work to make college more affordable by increasing the size of Pell grants for low-income students. We are reforming our workforce training programs to help Americans obtain the skills needed for the jobs that our economy is creating.

I have an ambitious agenda for the next four years. During my first term, working with the Congress, I put policies in place to ensure a rapid recovery and to support strong growth. In my second term, together we will cut the budget deficit in half, fix Social Security, reform the tax code, reduce the burden of junk lawsuits, ensure a reliable and affordable energy supply, continue to promote free and fair trade, help make health care affordable and accessible for American families, and expand the quality and availability of educational opportunities. These policies will produce an economic environment that continues to unleash the creativity and energy of the American people.

TRIBUTE TO MICHAEL F. KERGIN

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Michigan (Mr. CAMP) is recognized for 5 minutes.

Mr. CAMP. Mr. Speaker, I rise today to pay tribute to the distinguished service of Ambassador Michael Kergin, a man who has done much to advance the combined interests of Canada and the United States of America.

Mr. Kergin has spent the better part of the last 4 decades in public service. His experience has served him not only well at home but also here. He has served the American people very well.

When our Nation was attacked by terrorists on September 11, 2001, I knew

we had a friend in Michael Kergin and in Canada. Standing shoulder to shoulder, our two countries moved forward to battle against those who sought to disrupt the free and democratic world.

Having served as chairman of the former Select Committee on Homeland Security, Subcommittee on Infrastructure and Border Security, I have always been especially thankful that Ambassador Kergin was a constant source of goodwill and great insight as we secured our shared border while protecting our economies and the hundreds of thousands of jobs dependent on North American trade.

Together, we were able to secure a new working agreement, implement new tactics, utilize advanced technology and biometrics, and integrate border teams, all in order to strengthen border security without straining our friendship. The delicacy of such strategic initiatives and the relative ease with which they were accomplished is a testament to the skills Ambassador Kergin has always employed to ensure our historic friendship with our northern border remains sound.

As I am sure his services will be missed in Canada, on a personal note, they will also be missed in America.
